

# List of commission free ETFs

DEGIRO

Every calendar month, the first trade executed in an ETF of the "Free ETF Selection" is free of charge regardless of size and direction as long as it does not lead to a short position. The following trades made in that same instrument during the same calendar month will also be free as long as:

- the trade is in the same direction (i.e. buy/sell) as the first trade made that month in that instrument and
- the order value is greater than 1000 EUR (or USD)

As soon as an opposite trade is executed in the same instrument within the same calendar month, the rule no longer applies to that instrument and regular fees will be charged.

Please note that some ETFs may be listed on multiple exchanges and that it is only the exchange listed below which is commission free. It is the clients responsibility to ensure that the ETF is listed on the correct exchange to benefit from the commission free trading.

If you have any questions please contact customer service by telephone: +353 (0)1513 4951 or via email: [clients@degiro.ie](mailto:clients@degiro.ie).
